From the Directors Corner

Dear Parents

First and foremost, allow me to express my total gratitude for all your help in preparation for the Jersey City Health inspection. The submission of the Universal Health Care forms and immunization records was critical. Thank You.

Also, thank you for all you do for your children. We need to continue to be proactive and make responsible decisions while mitigating COVID-19. We will continue to mask and exercise social distance to keep our students safe and healthy.

We celebrate all our students' academic and socio-emotional development in this issue. However, today we highlight Yuvan Thomas, who turns two years old tomorrow.

Also, we celebrate our Ms. Geraldine as 3 and 12 years old young lady. She has touched many lives and deserves a huge "THANK YOU"!

Happy Friday to all of you! If you have any questions, don't hesitate to contact me at the office or via email. Enjoy your children!

Mr. Ollie Agosto

"Imagination does not become great until human beings, given the courage and the strength, use it to create."

— *María Montessori*

Who is this
baby?

Our week at a Glance

- Grace and Courtesy: offering, saying please and thank you
- Practical Life: Eating healthy; healthy habits
- Sensorial: Color Recognition
- Language: Learning the Alphabet
- Math: Counting Numbers
- Care of self and other beings
- Care for the environment

*If we want to reach
real peace in this world,
we should
start educating children.*

Ladybugs

Ms. Roma

This week, Mrs. Roma, Ms. Vivian, and Ms. Noelle worked in concert to expose all our children to an organized and prepared environment conducive to a learning environment that promotes individuality, academic growth, and socio-emotional growth.' In addition, the teachers served as role models for all the children to use and take care of their materials.

These materials are creative tools or toys used in a Montessori classroom that boost the child's five senses, enabling them to learn better. In addition, they are materials designed to rouse a child's interest in learning and interacting with others in harmony. Our teachers always aim to use all materials to develop the children's ability to think critically, use language effectively, and use concrete numerical skills. Also, the children were given many opportunities to use creativity through clay molding and painting.

The Dragonfly *Ms. Geraldine*

This week the children in the Dragonfly room are learning to socialize. They use fine motor skills to build a tower from Lego blocks and use practical life skills in the kitchen. Our younger children are developing gross motor skills learning to

walk and roll over. Together they make the room an exciting place to grow, explore and learn. Some are taking their first steps, while others are encouraging and loving friends.

~~Celebrating our Children~~

Happy Birthday!

2 and growing

Hi, my name is Geraldine Pastore. I was born and raised in Dublin, Ireland. I come from quite a large family. I have six sisters and three brothers. I've had a variety of jobs. I worked for Disney magic which was a fantastic experience. I've also worked in senior care, which was very

rewarding. I now oversee the infant program at the place for learning. I love being there for the families to support them and gain my trust to care for their young children. Every day they make me laugh, and I enjoy so much being part of their lives.

Sincerely,
Geraldine Pastore

the purpose of parenting is
to raise children true to their natures
so they can grow up
feeling honored, confident, and
free to be themselves.
